Worker:	Claim #:
Company:	Job Title: Line Worker: Level 3M – Wrist, Hand
Phone No:	Hours per day: _____ Days per week: _____
HR/Supervisor Name (please print):	Title: _____
Employer Signature	Date

Essential Job Duties: Worker to be assigned to accompany Serviceman. Duties to be assigned by Serviceman within physical restrictions.

1. Participate in pre-shift planning meeting, problem solving groups and safety meetings.
2. Travel to work sites to perform installation, repair or maintenance work.
3. Assist in servicing insulating/fireproofing materials.
4. Test electrical equipment or systems to ensure proper functioning.
5. Install watt-hour meters and connect service drops between power lines and consumers' facilities.
6. Assemble electrical components or subsystems. Assembly may be performed in the shop or on-site if within physical abilities. Assembling in shop may be done on a lift table or pallet on a forklift to position work bench at waist level.
7. Perform repairs on electrical circuits, wiring, or other electrical components or equipment, in the shop or field.
8. Patrol and inspect transmission and distribution lines and equipment, and make a report of findings to supervisor.
9. Perform switching and other mechanical duties as required. Duties may include testing electrical load on primary and secondary components or testing of circuits and components.
10. Perform routine maintenance on equipment, including adjusting and lubricating components, and painting worn or exposed areas.
11. Demonstrate equipment to customers and explain how it is to be used; respond to any inquiries or complaints.
12. **May perform regular job duties that are within the physical demands outlined in this job description.**

Machinery, tools, equipment and personal protective equipment description:
Safety vest and hard hat
Serviceman hand tools and recommended battery operated tools
Service truck with boom Forklift
Pen, clipboard
May use computer
Pallet or skid positioner (recommended as modification)

Modification Equipment Recommended:

Uni-Lift work positioner lifts a regular pallet or Skid Lift to position it at waist height for assembling components in shop. This helps avoid wrist deviation such as flexion, extension and ulnar deviation.

Silicon steering wheel cover absorbs vibration going into arms while driving on bumpy roads.

For assembling electrical components and subsystems in the shop, ergonomic tools with bent handles eliminate wrist deviation.

Battery operated pistol-grip cutting, compression and bending tools allow many tasks to be done one-handed without wrist deviation or forceful movements with the hands and forearms.

FREQUENCY DEFINITIONS

Worker:

Claim No:

Link-Job: Line Worker 3M-Wrist Hand Modified

N: Never (not at all) 0 minutes	S: Seldom (1%-10% of the time) up to 48 min.	O: Occasional (11%-33% of the time) 49 min. to 2 hrs. 25 min.	F: Frequent (34%-66% of the time) 2 hrs. 26 min. to 5 hrs. 35 min.	C: Constant (67%-100% of the time) more than 5 hrs. 36 min.			
PHYSICAL DEMANDS		FREQUENCY					DESCRIPTION OF TASKS
		N	S	O	F	C	
Sitting:			X			Worker may vary tasks while assisting service man, who usually works alone, to accommodate physical capabilities. Worker may drive to tolerance.	
Standing:			X				
Walking:			X				
Climbing Stairs:		X				Short flights of stairs at the yard. Climbing in and out of large service truck. Accessing customer sites.	
Twisting at the Waist:		X				May occur while driving or looking at lines and right of ways.	
Bending / Stooping:		X	X			Worker may bend to look at electrical components or equipment or for assembly.	
Squatting / Kneeling:	X					Not required.	
Crawling:	X					Not required.	
Reaching Out Both				X		Driving; performing inspections and repairs. Two people in truck, worker may ride or drive.	
Working above shoulder Dominant or Both		X	X			Inspecting or repairing components. Worker may use boom to reduce above shoulder work.	
Handling / Grasping Both			X	X*		Driving, performing inspections/repairs, writing. *Service truck may be modified with vibration absorbing steering wheel cover. Pistol-grip battery operated tools eliminate forceful grasping.	
Fine Manipulation Dominant			X			Writing, working with small parts.	
Keyboarding	X	X				Not required for some tasks, but may be required for data entry. Completing paperwork about jobs completed.	
Wrist flexion/extension Both		X	X*			Repairs, installation or building components using hand tools. *Wrist deviation for assembly may be reduced by placing work on adjustable work table and using ergonomic bent handle tools. Pistol-grip battery operated tools eliminate wrist deviation.	
Repetitive Motion Both	X					Not required.	
Vibratory Tasks		X				Not required for operating equipment. Some unpaved roads may vibrate truck steering wheel. Service truck may be modified with vibration absorbing steering wheel cover.	
Foot Controls / Driving			X			Automatic transmission pick-up truck. Two people in truck, worker may ride or drive.	
Talking / Hearing / Seeing			X			To communicate with supervisor and co-workers about tasks.	

Lifting / Pushing	Never	Seldom	Occasional	Frequent	Constant
<i>Example</i>	<u>50 lbs.</u>	<u>20 lbs.</u>	<u>10 lbs.</u>	<u>0 lbs.</u>	<u>0 lbs.</u>
Lift: R L Both	36 lbs.	35 lbs.	25 lbs.	10 lbs.	5 lbs.
Carry: DISTANCE: Both	36 lbs.	35 lbs.	25 lbs.	10 lbs.	5 lbs.
Push / Pull R L Both	36 lbs.	35 lbs.	25 lbs.	0 lbs.	0 lbs.
